

SP023PA Optional Adhesive Pads for Cup Holder Mounts

rev.032118

- 1** For oversized cup holders, add these optional self-adhesive side support pads (in conjunction with adjusting the cup holder mount base to its widest setting) by removing the adhesive backing and placing them on the sides of the cup holder pedestal base as needed.
- 2a** Placement of the support pads will vary for common trucks that have various sizes and configurations of cup holders, including tiered or padded cup holders.
- 2b** Alternate pad placement.
Note: Not recommended for adjustable "pop out" or retractable cup holders.
